

# FPD-7024 Fire Alarm Control Panel

Proven reliability in fire and life safety

**BOSCH**

Invented for life

# Rely on Bosch to help you protect people and property

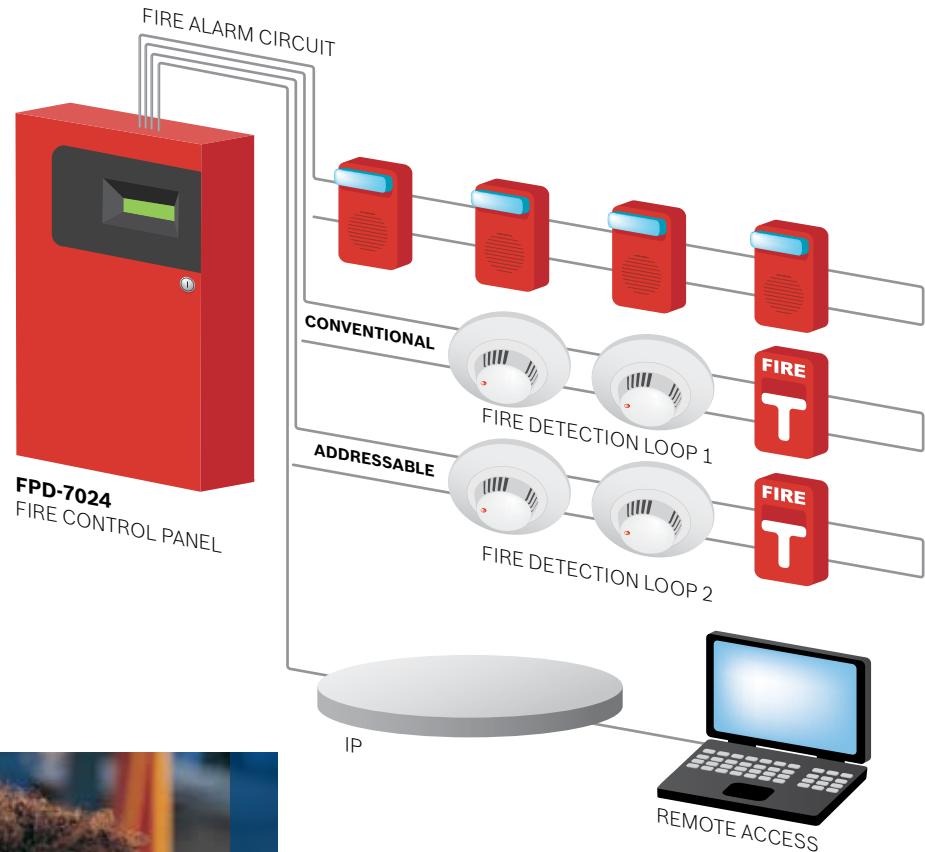

## Helping to protect your greatest assets

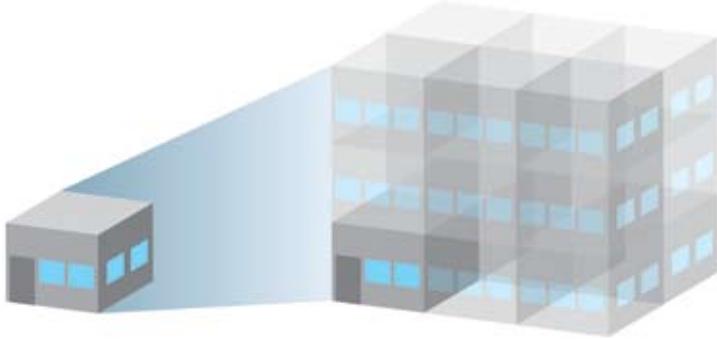

Backed by its +100 year reputation for quality and reliability, Bosch Fire and Life Safety products are designed with one mission in mind: to help you protect people and property.

The FPD-7024 Fire Alarm Panel is Bosch's latest innovation in fire and life safety. Much more than a "minimum requirements" alarm panel, the FPD-7024 combines a wealth of powerful features to provide accurate, life-saving information – even amidst the unpredictable, complex conditions of fire emergencies.

Engineered to deliver exceptional, dependable performance, the FPD-7024 helps first responders quickly make the right decisions at the most critical moments.

For more information on FPD-7024 fire alarm control panel solutions, contact your local Bosch dealer or visit [www.boschsecurity.us](http://www.boschsecurity.us) to locate a dealer in your area.

**Versatile and scalable, the FPD-7024 is ideal for both small and mid-size projects.** Choose the conventional model for locations such as convenience stores, day care centers and strip malls. For a minimal expansion investment, upgrade to an addressable system and meet the needs of mid-size facilities including office buildings, warehouses and motels. The FPD-7024 lets you address the safety concerns of a wide array of applications with one flexible solution.

## Proven technology that exceeds expectations

The FPD-7024 Fire Alarm Control Panel incorporates proven technology that exceeds expectations. With the FPD-7024, you get advanced features and functionality that are simply not offered in other systems in its class.

### **Easy and convenient to use**

The FPD-7024 can be programmed directly via its easy-access annunciator or a local laptop. Respond to an event without going to the panel using a remote keypad or annunciator.

### **Future-proofed with scalable design**

Install the FPD-7024 as a conventional panel to minimize up front costs. Use the expansion capability to meet future needs while protecting your original investment.

### **Easy upgrade to addressable technology**

Save precious time in a fire emergency. Upgrade from a conventional zone system to addressable technology for identification of the exact device in alarm.

### **IP-ready for reduced costs**

Conettix IP technology transmits alarms at lightning-fast speeds via the Internet, eliminating phone lines, reducing costs and increasing supervision and response time.

### **Enhanced LED Faceplate**

Fulfilling the requirements of authorities having jurisdiction, the FPD-7024 has an enhanced LED faceplate that improves situational awareness and helps eliminate human error and miscommunication.

### **Plays by the rules**

The FPD-7024 complies with the Americans with Disabilities Act and the latest fire codes and standards including UL 864 9th Edition.

## **A tradition of quality and innovation**

For over 100 years, the Bosch name has stood for quality and reliability. Bosch is the global supplier of choice for innovative technology backed by the highest standards for service and support.

Bosch Security Systems proudly offers a wide range of security, safety, communications and sound solutions that are relied upon every day in applications around the world, from government facilities and public venues to businesses, schools and homes.
